## General Product Information

Walnut, Heartnut, Butternut and their products (see note)	No
Cashew nut and cashew nut products (see note )	No
Pecan nut and pecan nut products (see note )	No
Brazil nut and brazil nut products (see note)	No
Pistachio nut and pistachio nut products (see note)	No
Macadamia nut / Queensland nut / Bush nut and their products (see note)	No
Coconut and coconut products excluding highly refined coconut oil	No
Highly refined coconut oil	No
Lichee nut and lichee nut products (see note)	No
Chestnut and chestnut products (see note)	No
Ginko nut and ginko nut products (see note )	No
Hickory nut and hickory nut products (see note )	No
Pine nut/Pinon nut/Pinoli nut and their products (see note )	No
Pili nut and pili nut products (see note )	No
Sheanut and sheanut products (see note)	No
Chinquapin nut and chinquapin nut products (see note )	No
Beech nut and beech nut products (see note )	No
Nut - Highly refined nut oil	No
Nut - Alcoholic distillates from nuts	No
Celery and celery products	No
Mustard and mustard products	No
Lupin and lupin products	No
Sulphur dioxide and sulphites at concentrations of more than 10 mg/kg or 10 mg/litre in terms of the total SO2	No
Buckwheat and buckwheat products	No
Peach and peach products	Yes
Tomato and tomato products	No
Mango and mango products	Yes
Latex (Natural Rubber)	No
Royal Jelly - Honey bee secretion	No

Please find some explanations:

1. Soybean and Soybean products – Tocopherols: This includes natural mixed tocopherols (E306), natural D-alpha tocopherol, natural D-alpha tocopherol acetate, and natural D-alpha tocopherol succinate
2. Wheat and wheat products: This includes - Durum wheat including semolina (*Triticum durum* Desf.), Club wheat (*T.compactum* Host.), Einkorn (*T. monococcum*), Emmer (*T. turgidum*) and other wheat species (genus *Triticum*) and their products.
3. If the wheat component is exclusively composed of Spelt, Kamut, Triticale or glucose syrup, dextrose, and Maltodextrin derived from wheat, please select these individual components instead of wheat and wheat products. Kamut and Kamut products: Also includes Khorasan or other Oriental wheat species.
4. Walnut and walnut products: This includes English, Persian, Black, Japanese and Californian species
5. For highly refined nut oil and highly refined peanut oil: There are dedicated entries for these components
6. For cereals and nuts used for making alcoholic distillates: There are dedicated entries for these components
7. Milk and milk products – whey protein used for making alcoholic distillates: This also includes whey protein used for making ethyl alcohol of agricultural origin
8. Oats – indicate if the material contains oats.
